Dear Bill:

What a thoughtful thing it was for you to take the time from your busy days and serious responsibilities to write your letter of 10 May 1988.

It continually amazes me to see how our process works: I dealt with my responsibility using the weapons provided by Arleigh Burke and only now are those for which I fought coming into play.

I can't tell you how touched I am by your thoughtfulness and how impressed I continue to be by your superb leadership.

Mouza joins me in sending our love to you and Shirley.

Sincerely,
