Dear Albert,

I am forwarding herewith a copy of John Newhouse's book, "Cold Dawn", with the request that you do me the favor of providing marginal comments or separate comments referring to the appropriate page number. I have found this book useful ~~for~~ assembling material for my memoirs on that portion that has to do with SALT, but I have also found omissions and inaccuracies.

I would be grateful if you could provide me during September your comments with particular reference to the following:

- 1) your best guesses as to who the unidentified sources might be which are quoted from time to time
- 2) your indication of significant omissions, distortions, or errors of fact
- 3) most importantly, your opinions where you disagree with Newhouse
- 4) any other views you consider pertinent

Your views need not be signed, and I will clear anything that I use with you, or will fail to mention you, if you prefer to remain anonymous.

Warm regards,

ERL:mc
