Binghamton University

June 16 1994

Dear Dr. Schecter,

Thank you for your Fax of June 15, 1994

- 1- CHOSE Hanoi, Ms. Melba Vidal has informed us about the new grant of 8,000 USD to purchase computer, motorbike ... We think that we could purchase those items in Hanoi. Thank you very much for your advice.
You will be very kind if you could bring to us in your next trip a SAS computer program. We are in great need of it ...
- 2- The breast cancer study goes thoroughly and I hope that we could complete the pilot study by September. I think that it would be better if you could come a few days before Admiral Zumwalt so could go through the paperwork and check the preparations for the trip
- 3- Concerning Admiral Zumwalt's trip, we understand that it is very important for both our Agent Orange research as well as for a better relationship between our countries, so we will try our best to make it successful.

- I believe that we could arrange for him meetings with Mr. General Vo Nguyen Giap, Madam. Nguyen Thi Binh ... if they are not away at that time.

- Your suggestion for organizing receptions with scientists, businessmen and official representatives sound for me a good idea

- For the CBS TV, please ask them to contact directly with us. PLS send us the CV (date of birth, nationality, passport number, occupation and address) of all CBS members for applying the Entrance Visa. To facilitate the formalities they have to send us as soon as possible, the scenario of their proposed film

- Renting a helicopter to fly over Camau peninsula is quite possible, the price fixed is 2.200 USD for one hour flight, departure either from Vung tau or Hochiminh city, flight speed 180-200 km/hour, so we should have to calculate exactly the time needed for renting the flight. The helicopter could carry up to 15 persons

- Program with prosthetic group could be arranged

But I only wonder how with a so short time, we could fulfill a so ambitious program.

I am looking forward to hearing from you soon!
