NOV 7 1988

Dear Admiral Zumwalt,

11/2/88

Although we have never met, we share the dream, as so many do, of having our country someday recognizing what the use of toxic chemicals in Vietnam did to fellow Vietnam Veterans, Brothers, Sisters, their families and friends.

Enclosed please find a copy of the Bangor Daily News, Monday October 24, 1988 in which you will find where a dream of mine (ours) came true.

The money free construction of the Washington "Sunrise" County Vietnam Veteran

was the result of many local businesses here in the community.

The wording and passage of the Agent Orange Memorial stone was the result of material and documentation written or said by you and many others over the years who have been involved with the Agent Orange issue. Enclosed please find letters of support.

I have been pretty stressed out physically as well as mentally prior to the long awaited completion of "our" Memorial, as well as following its completion. When I regroup, my second is having people like you, Joe Cole

Joe Bangert, Wayne Wilson, Mauck DeVictor, Julio Gonzales, Senator Doshel, Senator Kerry, David Carter and many, many others gather some week end to speak at the dedications.

Been thinking about having the ceremony towards the end of June. Memorial Day came to mind as did other holiday dates but I do not wish to have the dedication conflict with any other scheduled events around the country.

A short time ago I received a packet of material from my friend Julio

Gonzales a fellow A.O. activist  
as you well know. He enclosed a  
copy of his Sept. 26, 1988 letter regarding  
Mary Barton's BVA Hearings at which  
you will accompany her. Having only on  
Social Security Disability, I could  
only provide her with \$10.00 towards  
the fight. However, I sent her a copy  
of "our" Memorial as well as the newspaper  
clipping (Oct. 24) and wished her and you  
the best of luck with the November 16  
B.V.A. Hearings

Sincerely,  
Brian
