

NOTES TO 8-7-70

#1 Z always felt JCS had to be in print in order to force the system to consider our views. A passive attitude made it too easy to disregard military factors under political pressure.

#2 Useful quote as a flashback on Schlesinger in later part of book.

NOTES TO 8-10-70

Bob -

#1 This is one paper that might be useful to demonstrate K's good side. We could flashback to this example in a later treatment of K if that is better. Here it asks the tough good questions on air defense. The answer is also reasonable.

#2 Note CJCS sees us slipping to #2 at their forecasted budget levels.

#3 K and President beginning to get message.
