

ADDENDUM TO JCS - SEC DEF MEETING
of 19 July 1971

1. Concerning Paragraph G - home porting - the attitude expressed here remained the problem, that is, the U. S. Embassy personnel were always very reluctant to take on the problem of getting the home porting for the carrier squared away until U. Alexis Johnson took the problem for himself and got it done very neatly and adroitly for us, to the significant advantage of both Japan and the United States.
