I am pleased to report that our initial discussions about the clinic project with the Disabled American Veterans have met with a favorable response. The D.A.V. has requested a further meeting over lunch at their Washington, D.C. offices, 807 Maine Avenue, S.W., at 11:30 A.M. on Tuesday, June 18, 1991. We are of course still in the discussion phase of this project with a number of very serious questions to include the Socialist Republic of Viet-Nam's acceptance, United States government requirements, funding, in-country execution, et al., yet to be answered.

Although we have indeed achieved preliminary interest in the clinic project from one of the premier American veteran's service organizations (with a paid membership of over one million) we likewise have achieved a certain degree of vulnerability -- in any business undertaking there exists an element of risk. On the one hand our efforts to date have been rewarded, on the other our commitment to the project must now be focused because we will be examining what may evolve into a business relationship. Please telephone or FAX me at the above respective numbers before Saturday, June 15, 1991 to confirm your participation in this important meeting.

Sincerely yours,

Tran Van Ca
