Dear Admiral Zumwalt:

South Carolinians were indeed proud to host the recent Debate on the Panama Canal treaties. The panels, both proponent and opponent, brought national authority to bear on this critical issue. From our perspective the telecast was an enormous success. A record number of requests for transcripts of the Debate have been received. Any number of people in Columbia that evening would have paid scalpers' prices for admission to the Debate arena.

Enclosed are several photographs and a transcript of the Debate for your scrapbook or files.

It was an honor to meet you and a pleasure to work with you as part of the Debate. Thank you on behalf of South Carolina ETV and South Carolinians.

Sincerely,

Henry J. Cauthen
President and General Manager
