

ELMO R. ZUMWALT, JR.

Your heroic and meritorious service as an officer in the United States Navy has been attested throughout your career by numerous official citations and awards, including the Legion of Merit.

Villanova University today wishes to present you with its own citation, not only for the professional excellence with which you have served your country, but also for the concern you have shown for the well-being of the men under your command in all your assignments, but especially as Chief of Naval Operations.

Your courage in battle has been matched by the courage with which you have eliminated anachronisms in the military service of a changed society, opened programs to all qualified men regardless of race, provided rehabilitation for those in trouble, and balanced human needs with those of the military.
