

THE INSTITUTE OF
ENVIRONMENTAL & HUMAN HEALTH

VISION 2002

*We will be a leader in research
and education integrating
environmental and human
health sciences.*

*Our Institute will contribute
innovative solutions to
environmental problems by
embracing disciplinary
diversity, creating partnerships
and committing to excellence.*

Objectives

- **EDUCATION:** To provide multidisciplinary graduate and undergraduate education in environmental science, toxicology and environmental health
- **RESEARCH:** To investigate environmental and human health effects due to toxic chemical exposures
- **SERVICE and OUTREACH:** To stimulate collaborative teams of researchers to develop sound technologies and implement high quality science and technology in the interface of the environment, human health, economics, law and policy
- **JOINT VENTURES:** To develop and enhance education, new technology, monitoring systems and risk assessment approaches through joint ventures with industry, state and federal agencies
