Subject: For your eyes only

Dear all,

Here is a copy of the "final" Trans-Texas proposal; at least, this is what is going to Congressman Combest and Admiral Zumwalt for negotiations in Congress. Combest and Zumwalt will be receiving bound copies by FedEx tomorrow.

For now, I am sending copies out to the five subgroup leaders and assorted people who have specifically asked me for an electronic copy, or to people at TIEHH or TTU who require file copies. This document is NOT to be generally distributed, particularly in electronic form. However, if you want to make a hard copy for distribution up and down your chains of command, you are free to do so. However, you are personally responsible for the copies you make.

I will keep you posted as to glitches in progress, proposed organization structure, and proposed timetables. Amazingly, our Texas mediator, Dr. Kornguth, will be visiting TTU/TIEHH for the first time on Friday, in relation to this specific proposal. For those of you who will see him, make him welcome.

Thanks all,
Cross your fingers,

Lynn
