Hi Acl,

What's happening Jive? You get shot in the ass yet? The way it sounds you better keep your head under your helmet.

Your dad came over the other day and we sat in the bar and bullshitted for a while. He had come over earlier to take me over to see Jerry Andersson's new Coupe, but I was asleep. I guess it is really a sharp bomb. I told him that I wanted to get a new vette and he said he would talk to Jerry about it.

Well Ted, I am sitting in the hospital right now. The man will work me over tomorrow morning. I really am not too scared but mostly I just would like to know

② how it is going to come out. Just had dinner - it wasn't too bad - some thing like Army chow.

I really guess I can't afford those speakers and any of that other stuff that I talked about. I guess my eyes are bigger than my pocket book. I appreciate your offer though.

Glad to hear about Joanne and you. Guess you will have it made in Hawaii. I talked to her a couple of weeks ago and I guess she is really digging your act. I guess you already know that though.

Oh yeah, I made out o.k. with the mood. She reminds me of a chubby version of your old babysitter. ~~if~~ She loves to screw a lot too. I haven't seen her for over a week or two but I really didn't give a shit.

Sorry about that slant-eyed stuff. I guess you will make up for it when you get back to Hawaii.

Hey man, I don't care if you hitch or not. I know what kind of hell you are going through and if you can blow off a little steam in your letters go right ahead. I just went through a little bit of combat in Detroit and I know that I was scared as hell. That place must be about five or ten times as bad. Well at least you will be out of there soon. How is Hue? Aren't you lucky, you get to see all of those great cities with all these oriental culture and beauty and "Charlie". Ha.

Well Ted, take it easy and write when you get a chance. And keep your young ass in one piece.

Take it Easy George
