Mike,

The EC President has put a gag order on the EC regarding issues currently being stirred up. I responded to Powell "publicly" because he incorrectly attacked people "publicly". I'm sorry you don't agree, but if people are given misinformation those same people should be given the corrected information. I then request and attempt one-on-one communication with the individual involved.

I don't disagree with some of the things you're saying, but your "attacks" on me are slanted and unfair, particularly the one about me scheduling the EC Meeting. You're negatively reading into an e-mail message things that were not intended and were taken out of context of the EC Meeting Agenda. A person should have "all the pertinent facts" before jumping to conclusions. Goldie was copied on the message because as RC Chairman he needs to be aware of all meetings, and, as RC Chairman he is one of the invitees. There was nothing controversial in the e-mail, but Goldie should not have re-distributed it.

We've always been friends; I like you and respect you, and will always do so. We need to talk one-on-one about some of these things. I would also like your advice on how to prevent this "we/they" crap with future RC's. I'll be arriving at the Renaissance on 29 June (evening) ... let's get together first chance you get.

Please respect the confidentiality of this message and delete it.

Thanks (and continuing to be your friend, I hope),

cholly
