Dear Mr. Mike Sloniker,

The costs for 181 pages of documents I sent you came to a total of \$21.14. I am returning \$18.86. I really wish I could afford to just send them to you. I hope you did get them and they arrived in one piece and they'll serve your purposes.

I somewhat work under the aegis of the Society when it comes to a lot of the work I do for them, but this falls into more my personal work and it deals with documents I paid NARA for a long before I was even a member of the Society. So, this is all through my personal business account rather than the Society's. They use my name, and I use theirs, in the various projects I get involved with.

It's an honor to correspond with you.

Sincerely
