INTERNATIONAL COOPERATION ADMINISTRATION

PARTICIPANT REPORT / CONTACT LETTER

Project No. P10/P 430-71-120-1-90521
Date: February 17th - 1960

FROM: NGUYEN-VAN-CHUC
CO: Hq. and Hq. Co
USASTC
ADDRESS: Building: 23 602, Room: 10
Fort. Gordon, Georgia
USA

My dear sponsors,
I would like to report to you about my study at Fort Gordon. Two first weeks from 4 to 15 of January 1960, I studied the orientation including the radio communication developing in US, idioms, slang, colloquialisms and English vulgarisms. I began to study radio communication on 19 of Jan. During two weeks, I studied about AC and DC current, Ohm's law, construction and function of meters and many other subjects. After that, I had an writing examination and I passed it with 90 score. From 1 to 12 of February, I moved to another class there I studied about how to use the amplifiers and testing. On 2/15/60, I passed my examination with 80 score and moved another class there. I'm studying all of parts of the receivers.

My sponsors, I think this radio course is very difficult to the foreign students like us. Sometimes, the instructors explained a little fast and difficult to understand them, however I had to buy some radio communication ^{books} to study at home. Although, it was very hard to me but I always tried to study.

By the way, I inform you that I bought some books which I list below:

Date	Quantity	Description	Amount
February 5-1960	1	- Radio project	2.90
- " -	1	- Radio operating, questions and answers	4.45
- " -	1	- Elements of radio	5.23
February 9-1960	1	- Basic electronics (Vol. 5)	1.75
February 15-1960	1	- Profitable Radio	
		Troubleshooting	4.45
- " -	1	- Fundamentals of radio	6.61
- " -	1	- Essentials of Radio	5.98
Total			\$ 31.37

These are the receipts that I would like to send them to you.

Sincerely yours

 NGUYEN-VAN-CHIEU
