~~SECRET OFFICE REPORT~~

CONTACT LETTER

Project No. P10/P430-71-120-1.90321

Date: 10-2-1960

FROM: 1ST LT VU - DUC - VINH

ADDRESS: 40 HQ &amp; HQ Co USASTC, FORT GORDON, GA.

My group and I arrived in Augusta on the 7<sup>th</sup> of January '60, at 11 o'clock. A military bus had been at the station to bring us up to Fort Gordon. Which amazed us first was the large size and the cleanliness of the Fort. We were welcomed by the "Allied Liaison Section" of the Southeastern Signal School Headquarters. The people of this office were very courteous and very helpful. We were assigned to a Bachelor Officer's Quarter. Our rooms were comfortable. We had our meals at the Officer's Open Mess. The food was very good.

Firstly, we had an "Allied Student Orientation Course" in two weeks. All of us completed it successfully. Our class of "Field Radio Repair Course" began on the 25<sup>th</sup> of January '60 - We had 8 class-hours a day. We had to be present in the class room from 7:10 AM to 4:30 PM. We had a break of 1:30 for lunch at noon.

Though I was very busy, I enjoyed the class very much. I haven't had any difficulty in the language so far. The instructors were the best qualified. American classmates were very fine. Some of them invited me to have dinner with their families. We had many instruments and test equipments to experiment in class, so that we improved our knowledge in the theoretical field very fast. After two weeks of study about electrical fundamentals and the rectifier, we had to take an examination to pass to the other class. The examination was on the 8<sup>th</sup> of February. All of us passed it over the average score (70%). Mine was 86%. Now I'm studying the second phase of the course, and of course I keep the ball rolling.

P.S.

Two receipts are enclosed to this contact letter for reimbursement. The amount of the first one is 18 dollars for two manuals about "Electricity" and "Electronic". The second is 10.65 for two books, "Radio Servicing" and "Profitable Radio Troubleshooting". The total is 28.65.

Thank you
