Mr. Carl Stover  
c/o Brookings Institution  
722 Jackson Place, N.W.  
Washington 6, D. C.

Dear Carl:

I had hoped to see you at the ASPA meetings, but I gather you have no further interest in our school-boy antics. I haven't been to Washington recently and no trips are planned.

I am enclosing a description of the approach to international problems that is being made on campus. The more interesting part of this thing is on pages 7-10. You had once asked what we were doing.

The real reason for my writing is that the Head of the Civil Service, or Fonction Publique, in Vietnam is going to be in the States for roughly two months this summer. I was wondering if you are going to have anything functioning at that time in your leadership program that might be of value to him.

My best to Kathy. Hope to get down to see you at some point soon.

Sincerely,

Stanley K. Sheinbaum  
Coordinator

April 21, 1958

Mr. Stanley K. Sheinbaum  
Coordinator, Vietnam Project  
Michigan State University  
East Lansing, Michigan.

Dear Stan:

I am sorry I missed you at the A.S.P.A. meetings. Unfortunately, our second Conference overlapped them and I had to be in Williamsburg at that time. I have enclosed a copy of the second Conference program which may be of interest.

We would be glad to do what we can for the Head of the Civil Service in Vietnam. One possibility is that he might like to spend a few days observing our third Conference, which will be held in Williamsburg from June 15 through 27. Will this coincide with his visit? We would also be glad to talk with him about the general problems of executive development and arrange for him to see other people in Washington who are concerned with related programs.

The book on your International Programs is interesting. I am glad to have it.

The Salter comment is interesting and dangerous. When people start making comments like that I begin to feel like I've sold my soul.

Best wishes. I hope to see you soon.

Sincerely,

Carl F. Stover  
Associate Director  
Executive Conference Program
