East Lansing, Mich.

Dear Mr. Scheinbaum,

Before our group left Saigon, Mr. Hoyt told us that we would have the opportunity to work out the schedule of our stay in the U.S.A. with you. Now my most cherished ambition is to be trained as a lie-detector operator. I know that Keeler requires 6 months to form such a technician. But I have had ^(is) some break down with a couple of your C.I.A. interrogators, who used a portable polygraph for a classified job in Saigon (I was acting as interpreter). I have a good knowledge of interrogation techniques; I taught that subject at our Command School (14 hours) before I left Saigon. All I need is to know how to interpret the charts, INBAU's manual

is not very clear as far as reading the charts is concerned. I do think that 3 or 4 weeks would be quite enough for me to become quite familiar with the charts. I think I know how to work out the questions and how to handle the subjects. The C.I.A. interrogators told me that ^{much} much.

As I already am in possession of sufficient documentation on training (both before and after our visit to L.A. Police Academy) to be able to submit a Substantial report on that subject, I would appreciate it if you could arrange for my working under a good lie-detecter operator in Saint-Louis and in Washington. I want to specialize in that field: thousands of suspects would be released before suffering months of mental anguish and/or physical distress.

Thank you in advance for what you could do to help me realize my foremost desire. And thank you once more for all the kindness and courtesies showed on me.

Yours C. L. Ward

Dear Mr. Huong:

Enclosed you will find two registered letters received in this office this morning. I am also forwarding under its own stamp a letter for you from F. M. Fabian.

I hope your stay in St. Louis is going well and that the weather is somewhat pleasanter in St. Louis than it is at the moment here in Lansing. Mr. Chanh sends his regards as well as Mr. Ninh.

Will you please tell Mr. Shelby that I delivered his message, per our telephone conversation of Friday, to Mr. Sheinbaum. I received your card this morning!

Sincerely,

Margaret A. Stephens
Secretary

Dear Mr. Huong:

Mrs. Hoyt and I both enjoyed your letter. We have thought many times of you during your absence. Both of us attended the funeral of your son at the Chapel at Grall Hospital and there met your wife and other members of your family. Needless to say, our sympathy goes out to you thousands of miles away from this tragedy.

Mr. Sheinbaum has also forwarded to me his correspondence with you on the subject of additional training for lie detector equipment. I personally, as you know, would like to see you able to stay in the States for an additional six months, not only to complete this course but also to attend some of the courses at the Southern Police Institute at the University of Louisville. But apparently this is out of the question.

Tomorrow two more of our men leave to return to the States--Mr. Johnston and Mr. Rumpf--and on Saturday Mr. Newman will leave. Mr. Babineau left two weeks ago so you see our ranks are thinning fast.

Rains have started in Saigon so we have had a little break in the hot weather.

I hope that the rest of your tour proves interesting and informative.

Sincerely yours,

HOWARD W. HOYT, Chief
Police Administration Division

We have had a very exciting weekend here on campus due to the annual international festival. This event took place on Saturday from early morning to late evening (9 a.m. to 11 p.m.) and took the efforts of many of the Vietnamese to get everything in readiness, attend the booth during the day and repack everything afterwards.

Dear Mr. Sheinbaum,

Our group will leave tomorrow for London. We want to thank you for the wonderful six weeks we have lived in the U.S.A., for all the valuable information collected in the law-enforcement field.

I have been disappointed, not having met you again as you promised! I'll write you from London a few remarks concerning the training of a number of our participants. I already told Colonel Russell Snook.

I also want to thank you again for all the kindness and courtesies extended to me during my stay in East Lansing. Kindly convey our thanks to all.

Very truly yours

Henry

Dear Mr. Huong:

The enclosed letters were returned from the Y.M.C.A. in Washington today. I had already mailed these to you when Mr. Shelby called to advise me that all mail for your group should be sent to his address.

I trust that these arrive before your departure for Saigon as I know how anxious you are for mail from home. Perhaps the weather for which London is famous will be missing - I know that it can be a very pleasant place when the sun is shining.

Sincerely yours,

Elsie Cunningham

I am not sure that the mail service between here and England is
sufficiently fast enough to allow for delivery before your departure
but thought that perhaps it might.

Dear Mr. Steinbaum,

Thank you very much for your telegram.

Our trip has indeed been a wonderful experience. We know and understand much more now your country, your people, your way of life, we have learned a lot about American modern police systems and methods that books only could not teach us. Another angle: the four members of the group have learned much about each other and that is very valuable knowledge, too. I now appreciate very highly Bay and Thong. By the way, they have made much progress in English, especially Major Thong.

A few remarks now about our participants in Washington:

1) Nguyen Van Tanti, Nguyen Huan Tri, Nguyen Viet Hung and Ngo Van Cha (Radio Equipment and Supervision). Their knowledge of radio was nil when they were in Vietnam and it had been a mistake to let them take up radio with no technical background. Of course MSUE was not to blame: the few

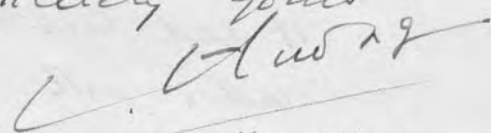

Radio technicians we have in our police services are unable to learn English, therefore clerks and typists were selected for the program! I will discuss the problem with General Le and Mr. Hoyt.

2) Truong Van Ngo and Tham Cong Thanh - These two officers told me that they were asked to leave the classrooms (at the secret Service) when films about surveillances, "filatures" etc were shown. Colonel Russell Snook explained to me that even officers from other American (U.S.A.) law-enforcement agencies were excluded too. So there is nothing you could do about it

Our group will leave London tomorrow for Singapore. We have visited Scotland Yard, the Police Training College near Coventry (Sergeants, inspectors, superintendents^{xx}), and a London police precinct headquarters, and Immigration Office at London Airport. Life here is much quieter than in your country - and so is the police and their methods!

With best regards and Thanks again for your kindness and assistance.

Very sincerely yours
