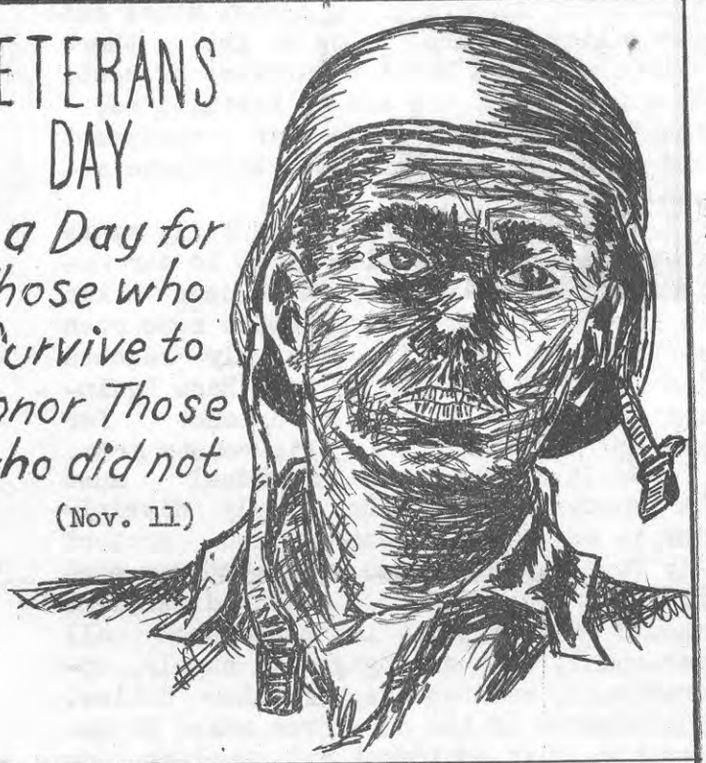
BIEN HOA BUGLE

VOLUME II NUMBER 8 FRIDAY, NOVEMBER 5, 1965

VETERANS DAY

a Day for Those who Survive to Honor Those who did not

(Nov. 11)



Registration Date Set For Maryland Classes

The Bien Hoa center of the University of Maryland overseas program announced this week that registration for Term II will begin at 7 p.m. Monday in the education office.

Subject to the availability of certified instructors and sufficient students, the center plans to offer four full credit college courses this term, which will start Nov. 15 and run through Jan. 22, with a two week Christmas break.

Courses that are tentatively planned for Term II are Personnel Administration I, the first of a two quarter, six semester hour sequence; Business Law I, also the first of a two quarter six semester hour series; Business Enterprise, Introduction to Mathematics, also the first of a two quarter six credit sequence; and Economics I.

The first quarter of the University of

100 Missions In 100 Days

Capt. Conrad D. Bethurem, an F-100 Supersabre pilot assigned to the 429th Tactical Fighter Squadron, logged his 100th combat mission Nov. 1, the first pilot of the unit to cross the milestone since the squadron came here in July.

Captain Bethurem was flight leader of a three-ship formation of Supersabres that hit a Viet Cong target about 120 miles southwest of Bien Hoa.

The pilots destroyed 12 sampans, damaged six others and one bridge on the strike, which was in support of a ground search and destroy operation.

The 34-year-old captain from Sheridan,

Materiel Sq. Goes 100 Per Cent In American Overseas Campaign

The 6251st Materiel Squadron, under the command of Lt. Col. Julian D. Campbell, Monday became the first organization at Bien Hoa to turn in 100 per cent participation in the American Overseas Campaign.

Agencies serviced by the fund are the American Social Health Association, the American-Korean Foundation, United Services Organization, Radio Free Europe, National Recreation Association, Project HOPE, International Social Service, United Seamen's Service and Care.

The drive will continue through Dec. 5, according to Capt. John Rich, base judge advocate, project officer.

Personnel can contribute in military payment certificates, U.S. money or by check.

ARTIST NEEDED

The Bugle is in desperate need of an artist or illustrator to letter headlines and do art work for the base paper. Anyone interested should call extension 7366 for further information.

Stronger Emphasis Placed On R&R Rules

Discrepancies noted on personnel departing on R&R flights recently have caused stronger emphasis to be placed on the requirements men must meet prior to departing on such flights.

A letter issued last week by Maj. Malcolm A. Phillips Jr., director of personnel services, Second Air Division, emphasized the following items:

*Cholera shots had been taken within previous six days.

*Outdated Cholera shots recorded on record of immunization.

*No record of immunization.

*Not wearing I.D. Tags.

*Attired in utility uniforms.

*Appearances far below accepted standard.

The letter pointed out that Cholera shots

Chaplain's Corner

By Chaplain (Capt) Carrol L. Johnson

DIVINE PROVIDENCE

The distinguished poet William Cowper passed through a great crisis in his life at thirty-two years of age. He attempted to end his life by taking laudanum. Afterward, he hired a coach to drive him to the Thames River, he intended to drown himself; but by some strange power he was restrained.

The following day he fell upon a knife; the blade broke and again his life was saved. Attempting to hang himself, he was cut down though he was unconscious for several minutes. Then in the brightness of a morning and in a moment of cheerfulness, he opened the Bible and read a verse from Paul's letter to the Romans.

After reading the Scriptures he received strength to believe, and soon rejoiced in forgivness from God.

Some years later and after having passed through many rich Chrisitan experiences, and had written volumes of hymns and poems, he sat down and summarized his faith relative to God's divine providence by writing:

God moves in a mysterious way
His powers to perform;
He plants his footsteps in the sea,
And rides upon the storm.

Deep in unfathomable mines
Of never-failing skill,
He treasures up his bright designs,
And works his soverign will.

Commander Speaks

By Lt. Col. Julian D. Campbell
Commander, 6251st Materiel Squadron

Those of you who were in the military service during World War II may recall our seemingly unlimited materiel resources during that period. Accountability was apparently unheard of in combat zones and our policy appeared to be to get there "First with the Most" regardless of cost. As a result, at the end of hostilities, untold millions of dollars in equipment and supplies were left to deteriorate around the world.

In contrast, today we are fully aware that there is a definite limit to our materiel capability. Steps have been taken to insure that even in a combat zone such as Viet-Nam, each item of supply reaches its intended user and we have Base Equipment Management Offices to account for all equipment in use in this remote area.

Additionally, each individual must be constantly aware that supply discipline is required to conserve and protect Air Force supplies and equipment for operational requirements. Supply discipline should be repeatedly impressed upon all personnel, whether engaged in supply, operational, maintenance, or other duties. The mission of the Air Force makes it imperative that equipment and supplies on hand be operational and maintained in the best possible condition; be in constant readiness, and be the minimum required to accomplish the mission.

These principles involve each of us. We are all responsible for the protection of our materiel resources from loss or damage. Operating personnel should not hoard or requisition more supplies than are actually required. This practice can result in shortages in some areas and overages in others. We all have a part to play in conserving our valuable Air Force property.

Services Combine Acft. Storage

Army and Navy aircraft are joining thousands of Air Force aircraft stored at Davis-Monthan AFB, Ariz. The Davis Monthan facility has been designated to become the only military aircraft storage and disposition center in the Armed Forces. This site was chosen for open air storage because of the dry climate and low soil acidity. More than 3,000 aircraft are stored there. (AFNS)

F-5 Freedom Fighter Pilots Deliver Heavy Blows To V.C.

In three separate air strikes flown recently by F-5 Freedom Fighter pilots of the 4503d Tactical Fighter Squadron, 19 Viet Cong structures were destroyed, 36 damaged, two sampans were sunk and one damaged, and two secondary explosions were created.

Maj. Alfred H. Hopkins Jr., flight leader of a three ship flight of F-5s led a strike on a suspected VC build-up approximately 25 miles south of Saigon, destroying three structures, damaging 14, sinking one sampan and damaging another, and creating one large secondary explosion. "Smoke rose approximately 500 feet in the air," said Major Hopkins. "It appeared to be a POL storage area." Other pilots on the strike were Captains Robert E. Dennedy and Louis G. Rever.

In another F-5 strike on a VC target approximately 65 miles southwest of Saigon, four structures were destroyed, seven damaged and three VC were killed by air. Leading the strike was Col. Frank N. Emory, 4503d commander. Other pilots on the strike were Maj. Roy L. Holbrook Jr., and Capt. Ronald J. Crozer.

Twelve structures were destroyed, 15 damaged, and one secondary explosion was caused by another F-5 strike on a VC target 85 miles east of Saigon.

November Promises Cooler, Drier Weather

By Capt. Edward M. Linn
Weather Officer

The northeast monsoon or dry season will become firmly entrenched over the Republic of Viet-Nam and Bien Hoa during November. It will gradually become cooler and drier as the month progresses.

The rainfall will be about one half of what we experienced in October or about 5½ inches, which will occur in the form of afternoon showers. These showers will occur on 11 of the 30 days. Average daily maximum temperature will be 87 degrees and the minimum will be 73.

Average relative humidity will drop three percent from October to 83 per cent for November.

FLU SHOTS MANDATORY

Mandatory flu shots will be given to all USAF personnel, both TDY and PCS on Bien Hoa AB, next Tuesday and Thursday from 1 to 4 p.m. at the Base Dispensary. Personnel are reminded to have their shot records when reporting for shots.

Anxious Captain Finally Gets Chance At Combat

After nearly 12 years of waiting, Capt. Wayne A. Ferguson has finally had the chance to fly combat missions against an armed enemy force, and with the same unit that he was assigned to in 1953.

As a young officer, Captain Ferguson had just missed getting into combat during the Korean conflict with the 429th Tactical Fighter Squadron. For the next 12 years he was assigned to various jet fighter units in the United States and Europe flying both the F-84 Thunderstreak and F-100 Supersabre.

Returning to the states from Germany in August 1964, he was assigned to Cannon AFB, N. M., the home station for the 429th. Shortly thereafter, Captain Ferguson volunteered for duty in Viet-Nam and in September 1965 he joined the 429th "Black Falcons" at Bien Hoa AB to fly combat missions against the Viet Cong.

Captain Ferguson is presently serving as the unit's assistant operations officer. He recently logged his 3,000th hour of flying time while on his 22d combat mission.

U.S. Savings Bonds easily are the most indestructible securities on earth. Every bond is registered in the name of the purchaser, microfilm copies of that registration are kept on file and any bonds lost, stolen, mutilated or destroyed will be replaced.

PARADOG—Igor, pet of 8th Army parachute riggers in Korea, enjoys jumping with his masters. Equipped with a special parachute and harness Igor has made five regular jumps.

SCHEDULE

EM Open Mess

TODAY - Happy Hour, 6-7 p.m.,Sons of South 8 p.m. SATURDAY - Jazz band, 8 p.m. SUNDAY - Sports movies (when available), at 1 p.m., Rock and Roll Band, "The Stunners" 2:30 - 5 p.m. and 7:30 - 9:30 p.m. MONDAY and WEDNESDAY - Happy Hour 6-7 p.m. THURSDAY - Open night at the mess.

Officer's Open Mess

MONDAY, WEDNESDAY and FRIDAY, Happy Hour from 5:30 to 6:30 p.m. WEDNESDAY and SATURDAY, Walter Zacherty singing and playing your requests and old favorites for your listening pleasure.

Snack Bar

MONDAY THROUGH SUNDAY - Open, 8 a.m.--2 p.m.; 3:30 p.m. - 7 a.m. Closed for cleaning purposes only.

Dining Hall

MONDAY THROUGH SATURDAY - Breakfast, 5:30-7:30 a.m.; dinner, 10:30 a.m. - 12:30 p.m.; supper, 4 - 5:30 p.m. SUNDAYS AND HOLIDAYS same except breakfast served 5:30-8:30 a.m.

Navy Exchange

MONDAY THROUGH FRIDAY - Open 11 a.m.--7 p.m. SATURDAY - Open 9 a.m. - 4 p.m.

Dispensary

MONDAY THROUGH SATURDAY - Open 7:30 a.m.-6 p.m. Sick call hours, 7:30 - 8:30 a.m. Emergencies: A medic and physician are on call 24 hours a day.

Special Services

MONDAY THROUGH SATURDAY - Special Services 7:30 a.m. - 4:30 p.m.; SUNDAY, 12-noon 4:-30 p.m., building 421.
SEVEN DAYS A WEEK - Weight and conditioning room, 2-9 p.m., building 421.
MONDAY THROUGH FRIDAY - Library open 10 a.m. - 10 p.m.

Religious Services

The following is a chedule of religious services for Bien Hoa AB.

PROTESTANT

SATURDAY - Religious movie, 6:30 p.m. in theater. Sunday-Sunday School, 8:30 a.m. in EM Barber Shop; choir rehearsal,9:15 a.m. in hobby shop; worship, 10:30 a.m. and 5 p.m. in theater. WEDNESDAY-Bible Study, 7 p.m. in EM barber shop. MONTHLY-PMOC 7 p.m. last Monday of month in EM barber shop.

LATTER DAY SAINTS

SUNDAY - Priesthood meeting at 8 a.m. Sunday School at 9 a.m. All meetings are held in the HSAS Library in the James E. Bailey Compound. For further information contact Capt. Ray Young at extension 7151.

CATHOLIC

MASS-Sunday, 9 a.m. and 12-noon in theater and 5 p.m. in VNAF Chapel; 5 p.m. during the week in VNAF Chapel; confessions heard before each mass. THURSDAY - Catholic Biblical Seminar, 7:30 p.m. in EM Barber Shop.

JEWISH

SAIGON - May contact Chaplain's office for schedule, telephone 7211.

Movies

TODAY - LOVE THE ITALIAN WAY with Elke Sommer and Walter Chiari. COMEDY: A frothy,delicious, naughty-but-nice move about what happens when a millionaire industrialist invites a group of people aboard his magnificent yacht for a cruise of the enchantingly bautiful coast of Sicily. If you've always dreamed of a Mediterranean cruise but haven't made it yet...this is it.
SATURDAY - TV FILMS
GUNSMOKE and COMBAT - 2100 hours
NFL FOOTBALL - 1830 hours
SUNDAY - DEADWOOD with Arch Hall Jr. and Melissa Morgan. With near documentary accuracy, the camera pictures the effect of the '76 Gold Rush on Deadwood, South Dakota. The greatest congregation of outlaws, gold-crazed fortune hunters and other lawless elements turn the town into a shambles; and where pistol smart Arch Hall, Jr. carves out an enviable reputation with his quick-as-a wink "draw."
MONDAY - FROM RUSSIA WITH LOVE with Sean Connery and Daniela Bianchi. SUSPENSE: British Secret Service agent Sean Connery is assigned to aid Daniela Bianchi, to defect to the West. Eluding several death traps set by SPECTRE, an international murder organization, Connery and Bianchi board the Orient Express to -- ESCAPE?
TUESDAY - WHO'S MINDING THE STORE? - 1830
FLUFFY - 2100

Bush Jacket Finished

Washington (AFNS)--The controversial bush jacket has finally become extinct in the Air Force. The Air Force has issued a reminder that as of Oct. 15, 1965, the Shade 1193 silver tan coat, shirt and trousers and the cotton summer service (bush) jacket are no longer authorized for wear by active duty personnel.

Local Helicopter Detachment Logs Longest Rescue Flight

One of their unit's longest rescue flights was carried out here successfully this week by a crew from Detachment 6, 38th Air Rescue Squadron.

Headed by Capt. CharlesT. Nadler, pilot of the HH-43F Hiskie, the four-man rescue crew picked up two Air Force crewmen after their O-1E observation aircraft had went down approximately 55 miles northeast of Bien Hoa AB.

They were Capt. Harold E. MacKenzie, assigned to Advisory Team 38, and SSgt. Edwin Clements of the MACV Advisory Group at Bao Loc.

The rescue crew had just gone on alert when they were scrambled. Due to the distance and area involved, direct navigation by reading of maps had to be used to find the recovery spot. Capt. Maurice C. Kessler, co-pilot, acted as navigator during the flight.

According to Captain Kessler, "Our navigation points were fair until we reached the mountains where we made contact with the spotter plane pilot who guided us on to our destination.

"The downed crewmen had taken refuge in a small Vietnamese Army outpost located alongside a dirt road," Captain Kessler said. "The area surrounding the camp was very hilly and heavily wooded, but fortunately there was a small clearing next to the camp in which we could set down the chopper."

An hour and 15 minutes after they had crashed the two crewmen were on their way to the Bien Hoa AB dispensary where they were treated for minor injuries and released.

Other helicopter crewmen on the mission were TSgt. Kenneth L. Perkins, crew chief, and SSgt. David E. Milsten, para-medic.

MANY TALENTS — Girl of many talents, Phyllis Alden, is an actress, singer and model.

SPOTLIGHT

(Editor's Note: The following article is one in a series on airmen, who along with their higher ranking counterparts, are also making large contributions to the unit mission.)

******

The Bugle spotlight this week falls on SSgt. Norman L. Strader, day shift controller of all refueling vehicles assigned to the Petroleum, Oil and Lubrication (POL) section.

Sergeant Strader arrived at Bien Hoa Sept. 24, after serving at Selfridge AFB, Mich., where he performed duties in the quality control section and as a squadron OJT supervisor.

A native of Salisbury, N.C., he entered the Air Force in March 1952. Sergeant Strader graduated from the supply school at Francis E. Warren AFB, Wyo., in 1952; from the NCO Prep School at Bolling AFB, D.C., in 1956; and from the OJT Supervisor's course at Selfridge in 1961.

Weather Station Moves

The weather station recently moved to the new operations building by the control tower. The unit is now commanded by Capt. Edward M. Linn, who replaced Maj. Eric V. Lader, who has rotated back to the states.

SCORE BOARD

The combat scoreboard for the week of Oct. 26-Nov. 1 is given below:

There were 171 missions flown, destroying 796 Viet Cong structures and damaging 478, which resulted in 30 secondary explosions.

There were 48 sampans destroyed and 56 VC killed by air.

On Single Mission 307th Pilots Create 12 Secondaries

Twelve secondary explosions, 42 VC structures destroyed, 25 damaged, and four Viet Cong killed, were recently recorded on a single strike against a VC concentration and storage area by only two pilots of the 307th Tactical Fighter Squadron.

It was the largest number of secondary explosions that the squadron had achieved on a single mission against the VC.

Captains Richard (Swede) M. Sanders and C. B. Hooper pounded the target approximately 55 miles northeast of Bien Hoain Binh Tuy Province for 20 minutes with 20 mm cannon fire and bombs from their F-100 Supersabres.

"The target was evidently being used as a storage point for VC explosives," said Captain Hooper. "After we would make a pass, the area would continue to explode like a string of firecrackers."

It was Captain Sander's 110th and Captain Hooper's 53d mission against the VC.

About Vietnam

Language, Physical Differences Exist Among Tribespeople

Tribespeople of different villages quite often are unable to understand each other's language and also have marked physical differences. Depending on the tribe, their skin color varies from extremely dark to slightly bronzed white.

Some are tall and well-built, others short and slight. Their hair may be frizzy or straight; and their clothing may cover more of their bodies than your uniform does of yours, or consist of nothing more than a few beads and a g-string.

The more than a score of different tribes can be grouped in two broad classifications based on language. Those in the larger group speak languages of the Mon-Khmer linguistic family related to present-day Cambodian. Some of these are Baru, Katu, Cua, Sedang, Hrey, Bahnar, Koho, Stieng, Muong, and Ma.

Those in the smaller group speak languages of the Malayo-Polynesian linguistic family that are related to Cham. The principal tribes speaking languages of this family are Rhade, Jarai, and Raglai.

But even within a language group, people of one village sometimes cannot understand those of another. If 10 to 20 miles of matted jungle trail separate the villages, there is not much communication between them and language differences develop.

Languages of both these two linguistic families, Mon-Khmer and Malayo-Polynesian, differ greatly from Vietnamese in at least one major respect--they have no differing tones, while Vietnamese does. Since tones are usually difficult for Americans, tribal languages should be easier for you to learn than Vietnamese.

Also, none of these people ever had a written language of their own until French and American missionaries began devising them, mostly in this century. Comparatively few tribespeople know how to read, so if you want to study their language you do so by ear not book.

NEXT WEEK: The Census Problem.

AP Squadron Gets New 1st Sergeant

MSgt. Raymond T. Lacorbiere has taken over duties as first sergeant of the 62-51st Air Police Squadron, replacing MSgt. Hugh L. Waggoner, who has been acting first sergeant of the unit since it became a squadron Oct. 1.

Sergeant Lacorbiere, a veteran of over 20 years service, served as first sergeant of the 22d Organizational Maintenance Squadron at March AFB, Calif., before coming to Viet-Nam.

He was assigned to March from Castle AFB, Calif., where he served as KC-135 flight chief, recovery team chief and first sergeant, during the 6½ years he was stationed there.

A native of Los Angeles, Calif., Sergeant Lacorbiere is married and has a son who is now attending the University of California at Riverside.

One Quart

Duty-Free Beverage Law Effects Military

All military personnel and their dependents are affected by the United States Public Law 89-62 reducing the amount of duty-free alcoholic beverage which may be imported into the U. S. by residents.

The law, which became effective this month limits the amount of alcoholic beverage to be imported duty-free by U. S. residents to one quart per person. One wine gallon of alcoholic beverage, however, may be imported by persons arriving from or indirectly from American Soma, Guam or the U.S. Virgin Islands.

Further, the law restricts the import of duty-free alcoholic beverages to persons who have reached their 21st birthday and requires the individual claiming the duty-free exemption to actually possess the beverage.

For further guidance, personnel are advised to refer to AFR 76-3, dated Sept. 17, 1965. (PACAF NS)

The highest mountain, 10,319 feet, and the lowest lake, 144 feet below sea level, in the Caribbean area are found in the Dominican Republic.

FACs Claim Vietnam Record

A group of U.S. Air Force forward air controllers here are claiming a record for other FAC's in Viet-Nam to equal.

The "Pythons" — call sign for the five Air Force FAC's assigned to the 173d Airborne Brigade — recently flew 52 sorties on the same target in less than two hours.

"This averages a flight every two-and-a-half minutes," said Maj. Harold S. Snow, USAF air liaison officer to the 173d Airborne.

Major Snow also believes he is the only USAF member to make a combat parachute jump in Viet-Nam.

The major made the jump recently with a Vietnamese airborne brigade over Viet Cong infested "D" zone.

"I made the jump to obtain some on-the-job training," said Major Snow. "It was my first jump since parachute training at Ft. Benning, Ga."

The Vietnamese war is the third conflict for the major. He flew 100 combat missions in China and Burma during World War II, and 101 missions during the Korean War in F-51s and F-86s.

Other members of the "Pythons" are Capt. Jerry G. Malloy, Capt. William G. Roberts, Capt. James A. Kaneski, and Capt. James E. Thomas.

More than 478 million individual U.S. Savings Bonds are being held by Americans today. They represent holdings of approximately $49.9 billion dollars.

Texas Pharmacal Company Donates Medical Supplies To Leprosarium

Sunday, Oct. 31, will long be remembered by the staff and patients of the St. Joseph's Leprosarium at Ben San, Viet-Nam, seven miles northwest of Bien Hoa Air Base. It was on that day that U.S. Air Force Flight Surgeon, Capt. Calvin C. Chapman delivered to them $1,400 worth of pharmaceutical preparations donated by the Texas Pharmacal Company of San Antonio, Tex. The supplies were airlifted to the leper colony, located deep in Viet Cong controlled D Zone, by a U.S. Army helicopter.

In June 1965, when Dr. Chapman first went to the leper colony, he noted that skin problems were common among the lepers. The disease often thickens the skin to a leathery consistency, and there is no sensation because the nerves have been destroyed.

Frequently the skin cracks and infection enters leading to serious secondary problems. Skin in parts of the body unaffected by leprosy also suffers because many of these victims cannot care for their own personal hygiene needs. Dr. Chapman felt that the use of preparations to keep the skin moist and soft would be helpful.

He wrote to his former Air Force medical associate, Col. Harold A. Myers, who arranged for the Texas Pharmacal Company of San Antonio to donate large quantities of skin lotions and creams and anti-fungal preparations. The shipment was airlifted to Viet-Nam by the Air Force.

The chief nurse, Sister Marie Antoinette of the Sisters of Mercy, and the Swiss Priest who manages the leprosarium, Father Victor Berset, expressed delight by the humanitarium gesture. Father Berset voiced the thanks of patients and staff when he said: "The friendship demonstrated to the Vietnamese people by this thoughtful donation of much needed medicine to the most unfortunate group of all, the lepers, is an outstanding example of American concern for all people in Viet-Nam. The Texas Pharmacal Company has been very generous. We offer our heartfelt thanks to the company and to all the Americans whose efforts made this gift possible."

WELCOME

The following personnel are recent arrivals to Bien Hoa Air Base:

Senior Master Sergeant Eugene H. Hoops.

Technical Sergeants Clyde P. Domahoe, Dadian Rartin, Roy C. Bishop, Leonard Williford, Edward A. Lapinsky, Chris C. Lay Jr., and Gene Carter.

Staff Sergeants James B. Brunson, George R. McLeod, Gerard R. Chartier, Edwin M. Denton, William O. Cook, Donnie G. Hancock, Ronald C. Terrell, William P. Schied, Dan E. Kelley, Albert L. Biggs, and Royce E. Springate.

Airmen First Class James A. Wilhelm, Morris J. Porter, Ronald Soulant, Herman Fitzloff Jr., Feliberto Salas, James P. Campbell Jr., Donald L. Stanley, David T. Dennis, Robert J. DeRisi, Robert L. Mitchell, Jon K. Stather, Fred E. Davis, Robert J. Connor, John L. Risse, Frederick H. Scott Jr., Gerald B. Cherry, Johnny L. Berry, David F. Polic, Charles W. Sandusky, Roderic H. Brodie, and Clarence S. Teater.

Airmen Second Class Charles H. Jones, Clifford F. Wilson, John P. Hilton, Roger J. Andras, Ronald V. Wdowiak, Clyde R. Caldwell, John Chumley, Alfred W. Gadow, Frank R. Carrillo, Michael L. White, Edward Weis, Michael J. Anderson, John J. Travis, Paul A. Prenatt, Michael L. Smith, Jimmy L. Brinegar, Donald W. Leister, Joseph C. Ball, Franklin D. Hungate, James N. Toledo, George A. Miller, Fredrick W. Mahler Jr., Terry D. McAnally, Wayne G. Miller, and Robert A. Love.

Sports Quiz

(AFPS Weekly Feature)

1. In 90 runnings of the Preakness, how many dead-heats have there been for win, place or show?
2. How many home runs did Ralph Houk, general manger of the New York Yankees, hit in his major league career?
3. For how many years was Sammy Baugh an active player in the National Football League?
4. National Football League teams averaged how many points per game in the 1964 season? There were 98 regular games that year.
5. What is the average height of players in the National Basketball Association?

ANSWERS

1. There has been only one dead-heat when, in 1942, Requested and Sun Again tied for second place behind Alsab.
2. Houk never got the thrill of hitting a homer in his major league career.
3. "Slinging" Sammy Baugh was on the NFL gridiron for 16 years (1937-52 inclusive).
4. The NFL teams averaged 44.1 points per game that season.
5. Today, the average height in the NBA is between 6'5" and 6'6" per man.

.....100 COMBAT MISSIONS.....

...(Continued from Page 1)...

Wyo., was on a strike mission in September, along with three other F-100 pilots, which netted 205 VC killed, the highest number credited to a single strike so far for the unit.

Martha Raye Coming Again

Martha Raye will visit Bien Hoa Monday night where she will meet and talk with men at the airmen's dining halls, Enlisted Men's Open Mess and the Officers' Open Mess.

ARTIST NEEDED

Anyone interested in doing headlines and art work for the Bien Hoa Bugle, please contact the office of information, ext. 7366.

R&R Rules Given Stronger Emphasis

..(Continued from Page 1)..
are required within the past four months prior to entry into Bangkok and within six months prior to entry into Hong Kong, but must not have been administered during the previous six days before arriving in those cities.

A record of immunization and I.D. cards must be carried. I.D. tags must be worn at all times while on R&R.

On government aircraft to and from Bangkok and Hong Kong, the summer service A or B with short sleeves for enlisted men and summer service with short sleeved shirts for officers, will be worn. Utility, fatigue or work uniforms, will not be worn. Civilian attire is encouraged after arriving in the R&R city.

The letter said that personnel will not be manifested aboard R&R aircraft unless all criteria are met.

In an effort to make sure personnel at Bien Hoa meet the outlined criteria for R&R flights, Col. Philip Brooks, 6251st Tactical Fighter Wing commander, has established the following rules:

*First sergeants will interview and brief each enlisted man at least 10 days prior to his departure on R&R to insure that all requirements are fulfilled and the individual is aware of his responsibilities.

*First Sergeants will inspect each enlisted man immediately prior to departure from Bien Hoa Air Base to insure that his appearance and uniform meet required standards.

*Each officer is responsible and is expected to fulfill all established requirements prior to departing on R&R.

F-111A Flies To Eglin For Further Tests

EGLIN AFB, Fla. (AFNS)—An Air Force F-111A landed here recently from the Fort Worth Division of General Dynamics for tests of its electrical and environmental system.

The aircraft is one of the development version supersonic, variable-wing tactical fighters being built by General Dynamics as F-111 program prime contractor. The tests here will be conducted by the Air Force Air Proving Ground Center. The aircraft will be joined here later by another F-111. The test program is expected to extend through 1966.
